

## GRAND OPENING OF ENERGY SYSTEMS TECHNOLOGY INCUBATOR

Date 6.30.2011  
Time 4:00 to 7:00 pm  
Location NEST Incubator, 7693 Longard Rd, Livermore

Sblend Sblendorio is a board member of i-GATE Development Corporation, designated by the Governor's Office of Economic Development as one of six "innovation hubs" (iHubs) in the State of California.

Based in Livermore, i-GATE is a public-private nonprofit that extends throughout the Tri-Valley region and includes programs and special facilities at Sandia National Laboratories/California, Lawrence Livermore National Laboratory, the Joint BioEnergy Institute, and the University of California campuses at Berkeley and Davis. Its purpose is to grow a regional innovation ecosystem to maximize the economic potential of green transportation and clean energy technologies by linking together the national labs and universities, entrepreneurs, VCs, and the business community.

In a strong step in i-GATE's growth, we have recently established an incubator for NEST-National Energy Systems Technology. Please attend our grand opening and learn about i-GATE and NEST.

RSVP by June 16, 2011 925.245.1880 or [melanie.hagebusch@igateihub.org](mailto:melanie.hagebusch@igateihub.org)
