LY'S BUSINESS

At this seminar you will learn:

- the common misconceptions about gifting a family business

- 12 Common Sense Questions™ for getting a succession plan started
- strategies to help families find their own succession solution
- the secrets of protecting wealth that the world's dynastic families have known for centuries\

Tom offers a compelling argument why families should be clear about when they will sell the business and to whom. Families that are upfront and realistic about their goals for transitioning ownership of the business can avoid jealousy, sibling rivalry and regrettable inter-family lawsuits.
