

**DIGITAL ASSETS TAX ISSUES  
WEBINAR WITH MACKRELL  
INTERNATIONAL CRYPTOCURRENCY  
& BLOCKCHAIN CHAIR DARLENE  
CHIANG**

The emergence of the blockchain and crypto-asset phenomena provides companies and individuals with exciting opportunities including facilitating new payment methods, verifying digital identities, and enabling new types of commerce. However, there is relatively little tax guidance available.

This session provides you with what you need to know about tax issues related to digital assets. The panel features key perspectives from US and UK tax professionals discussing:

- Current and future developments in the Blockchain industry
- Corporate Tax Considerations
- Tax Considerations for Individuals
- Tax Structures
